

Frank N. Dixon

Senior Full-Stack Engineer (Front-End Focus)

Boston, Massachusetts fdixon7@gmail.com (413) 218-6421

linkedin.com/in/frank-dixon-senior-developer github.com/frank-dixon

SUMMARY

Senior full-stack engineer with a front-end focus and 15+ years shipping high-performance e-commerce and enterprise web products. Strengths in Django/Python, JavaScript, HTML/CSS, Tailwind, accessibility, performance, and leading small front-end teams—architecture that ships cleanly under live traffic.

EXPERIENCE

Senior Full-Stack Engineer (Front-End Focus) · Undercover Tourist May 2021 – Present

Austin, TX (remote) · Travel & entertainment e-commerce

- Led a team of 3 front-end specialists on complex hospitality e-commerce solutions
- Replaced a legacy front-end framework in-flight with a bespoke UI layer—cut CSS bundle size by over 50%, increased product velocity, and reduced friction in conversion funnels
- Shipped new site functionality while refactoring legacy scripts to reduce asset payload
- Collaborated with designers and engineers to integrate RESTful APIs into new products
- Drove website accessibility work to make the site ADA compliant

Senior User Experience Developer · LATICRETE International Feb 2020 – Apr 2021

Bethany, CT

- Technical lead for corporate website overhaul—architected information architecture for an enterprise site
- Built responsive web and mobile UIs focused on performance and scalability; developed a component library to standardize and accelerate feature delivery

Senior User Experience Developer · Prudential Financial May 2017 – Feb 2020

Hartford, CT

- Technical lead for interactive tools and a templated website builder; managed development and testing of new digital products
- Oversaw vendor relationships for web application development and accessibility compliance; led workshops on iterative design and development
- Received seven Prudential Impact Awards for driving improved business outcomes

User Experience Developer · The Walker Group Sep 2014 – Jan 2017

E-commerce and migration work for SMB and national clients; one wholesaler site drove 100%+ increase in RFQ goal completion.

Front End Developer · Idea Agency Sep 2013 – Aug 2014

Agency sites, marketing emails, and landing pages for higher-ed, banks, and small businesses.

Bioinformatics Engineer · University of Massachusetts Amherst Nov 2008 – May 2011

High-throughput genomic analysis; open-source tools for genetic markers and mRNA tagging.

Front End Developer · Windsor Marketing Group Jan 2006 – Aug 2008

Client-side apps for high-throughput printing; Maverick Award (Employee of the Year, 2007).

Web Designer / Developer · Impact Media Group Mar 2004 – Jan 2006

Small-business websites, digital marketing, and sales-team technical consulting.
